DIY Diamond Painting

QUICK START GUIDE

KAIZEN - MINDFUL CRAFTING

⚠️ SAFETY WARNING

Contains small pieces. Keep away from children and pets.

📦 WHAT'S INCLUDED

- 1x Mandala Magnet (numbered adhesive surface)
- Assorted Coloured Diamond Beads (numbered packs)
- 1x Wax-Tipped Diamond Applicator Pencil
- 1x Diamond Sorting Tray

Step-by-Step Instructions

1. **Prep Your Space:** Lay out all your materials on a flat, clean work surface.
2. **Organize Your Beads:** Match the number on the mandala section you want to complete with the corresponding numbered bead pack. Pour a small amount into the sorting tray and give it a gentle side-to-side shake so the diamonds flip face-up.
3. **Peel Back Film:** Peel back a section of the protective film on the mandala magnet to expose the sticky surface beneath. (Keep unworked areas covered to preserve the adhesive).
4. **Pick Up Beads:** Gently press the wax tip of the pencil directly onto the rounded top of a diamond bead to pick it up.
5. **Place by Number:** Press the diamond firmly onto the matching number printed on the magnet.
6. **Seal & Lock:** Once every numbered spot is filled, place the protective film back over the design and press down firmly across the surface with your hand or a heavy book to lock the diamonds into place.
7. **Display:** Peel off the film—your sparkly mandala magnet is ready to display on any magnetic surface!
