DIY Painting Kit

QUICK START GUIDE & INSTRUCTIONS

KAIZEN - MINDFUL CRAFTING

⚠️ SAFETY & PROTECTION

- **Protect Your Space:** Acrylic paint can stain surfaces and fabrics. Always cover your table with newspaper, cardboard, or a plastic tablecloth.
- **Child Supervision:** Adult supervision is recommended for young children while painting.

🎄 PRO TIPS FOR BEST RESULTS

- **Flat Surface:** Lay baubles directly on your covered table for easy painting.
- **Layering:** Let base color dry completely before adding fine details to prevent smudging.
- **Mixing:** Blend shades on palette (e.g., red + yellow = orange).
- **One Side First:** Paint back face first, let dry, then flip to paint front.

Step-by-Step Instructions

1. **Set Up Your Workspace:** Lay down your table protection and fill a small cup with clean water to rinse your brushes between colors.
2. **Prep Your Paint:** Pop open your paint pots and, if you plan to mix colours, transfer small amounts of the colors you plan to use into the wells of your paint palette.
3. **Paint the Base Coat:** Use the larger paintbrush to apply a base color onto your flat bauble. Allow it to dry completely before adding extra details.
4. **Add Patterns & Details:** Switch to the detail paintbrush to paint the rest of the bauble. You can also add other patterns, maybe try polka dots, snowflakes, stripes, or personalized names!
5. **Let It Dry:** Leave your completed baubles flat on your protected table to dry for 30–45 minutes until completely dry to the touch.
6. **Hang & Celebrate!** Thread a ribbon or hook through the top loop of each bauble and hang your custom ornaments on your Christmas tree!
