Origami Heart Mobile

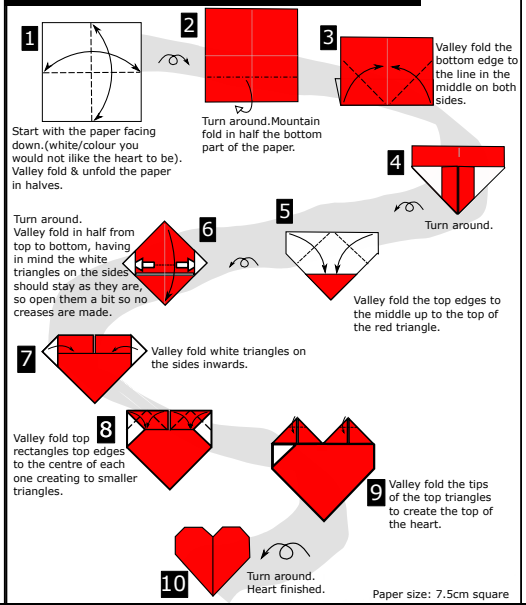

How to read a diagram

◇Always keep in mind the direction the paper is facing in step 1. If you start on the other side the colors will be inverted.
◇You can use the bone folder to make the creases.
◇If you get stuck on any step, look at the next step, that way you can see how it should look.
◇See the detailed references below to be able to understand the diagrams better.

- Valley Fold
- Mountain Fold
- Full line shows the previous step
- Fold
- Fold & Unfold
- Turn Around
- Tuck In
- Open & Flatten
- Repeat on the other sides (the horizontal lines indicate the amount of sides)
- Rotate
- Zigzag Fold
- Blow it open

Flap- Part of to be inserted into a pocket
Pocket- Opening in a module

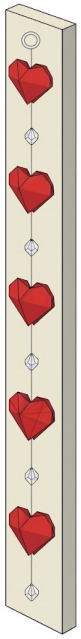

How to make the hearts

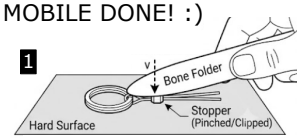

Paper size: 7.5cm square

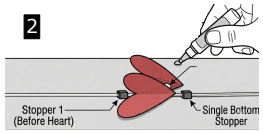

How to assemble the mobile

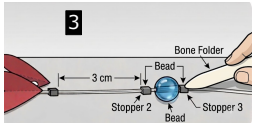

1. Make 10 hearts.
2. Unravel the fishing wire.
3. Grab the ring and the fishing wire at the top and make a loop around it.
4. Put a stopper in (the little metal bead) and when in position pinch it using the bone folder on a hard surface to keep it in place **(image 1).**
5. Grab the ruler and measure 3 cm, place 1 stopper and pinch it.
6. Grab 2 hearts and glue them together with the fishing wire in between and right where the stopper is **(image 2)**.
7. Use the pegs to hold the hearts together until they dry.
8. Place another stopper at the end of the heart.
9.Measure another 3cm, place 1 stopper, pinch it and then one bead.
10.Place another stopper right at the end of the bead and pinch it **(image 3)**.
11. Repeat this 4 other times.
12. To finish the mobile grab the bigger bead, put a stopper in, loop the fishing wire around the bead, inside the stopper then pinch it.

MOBILE DONE! :)
